# Parliamentary System

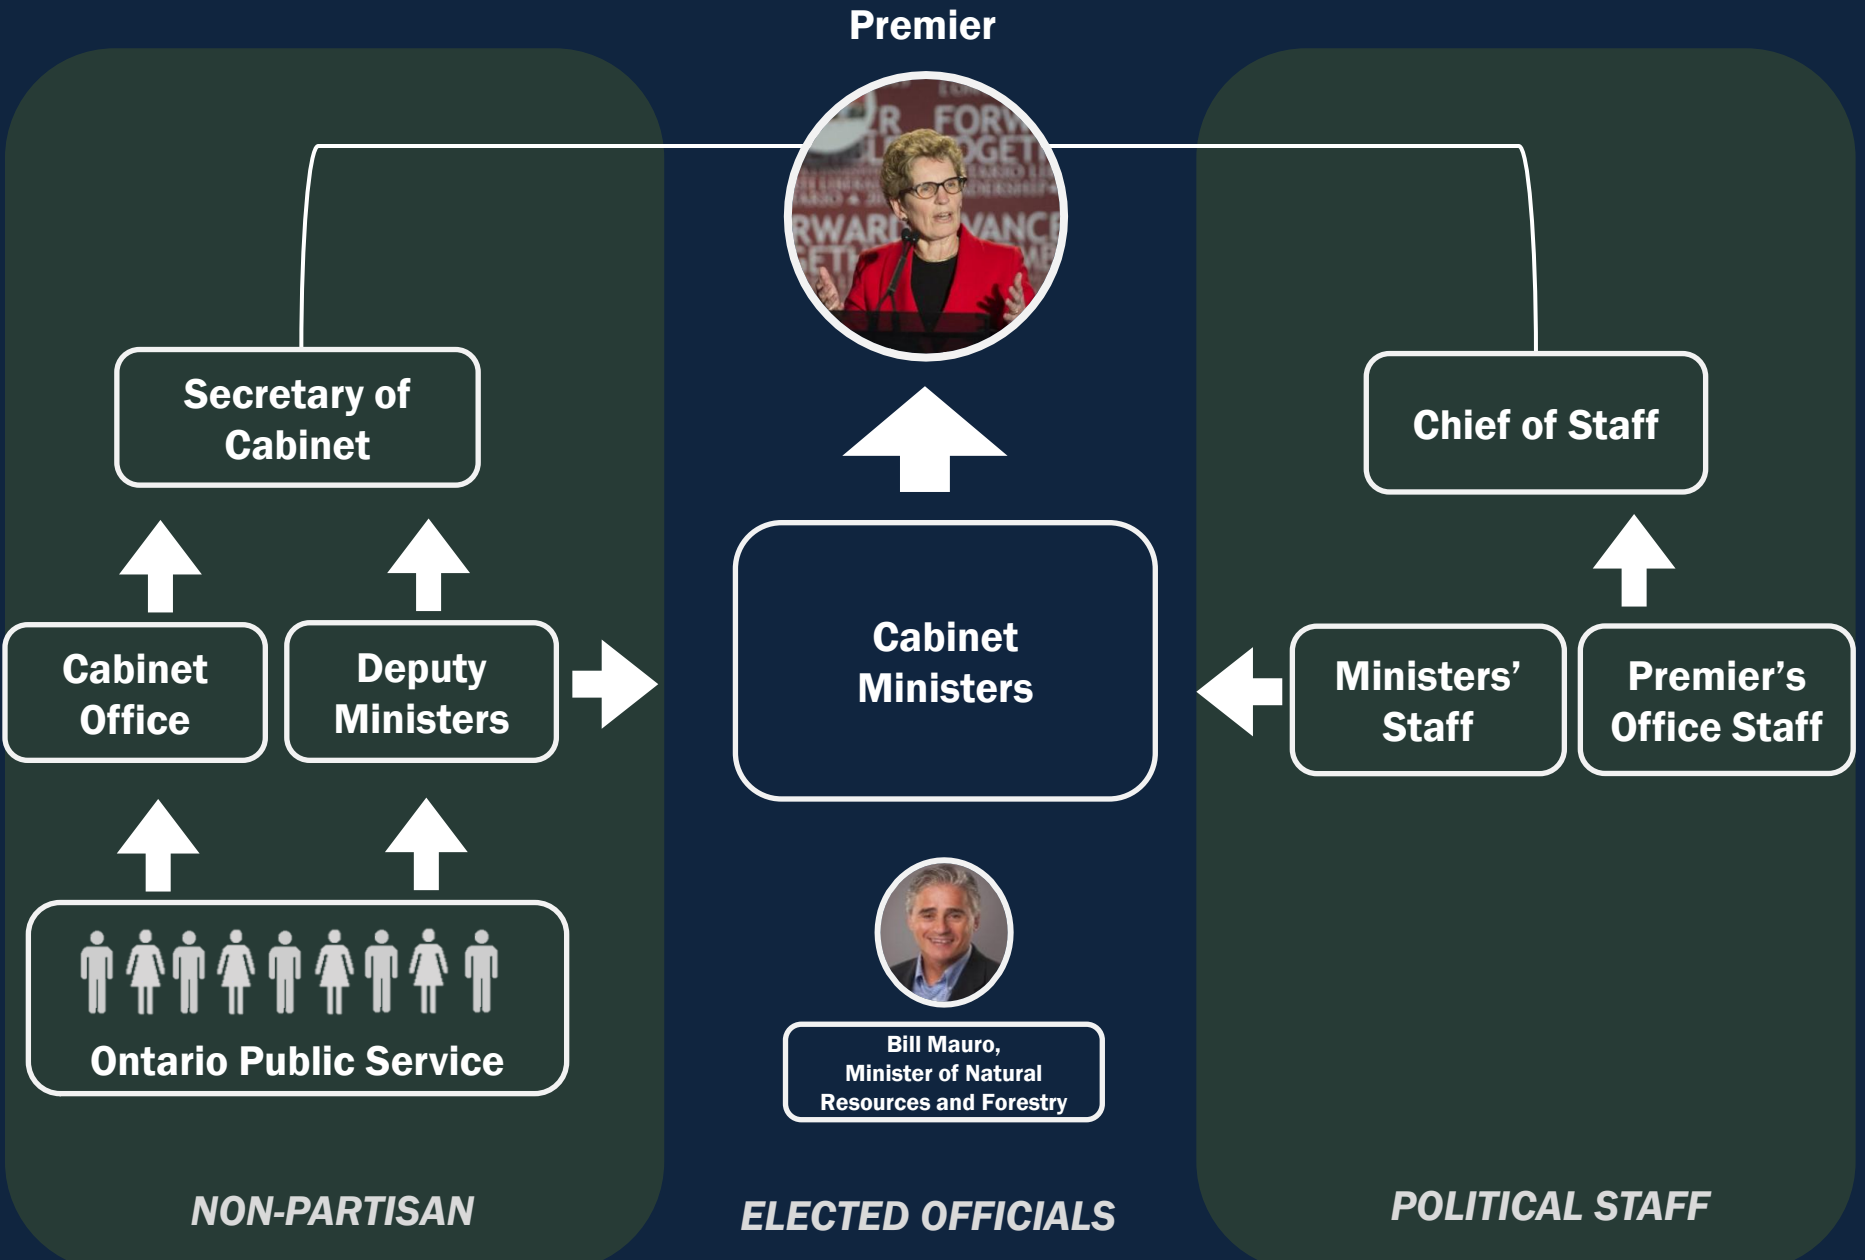

- › British model of government (Westminster system)
- › Executive sits in the legislature (unlike U.S.)
- › Party-based:
  - Premier is party leader
  - Cabinet is chosen from elected party members

# Legislature

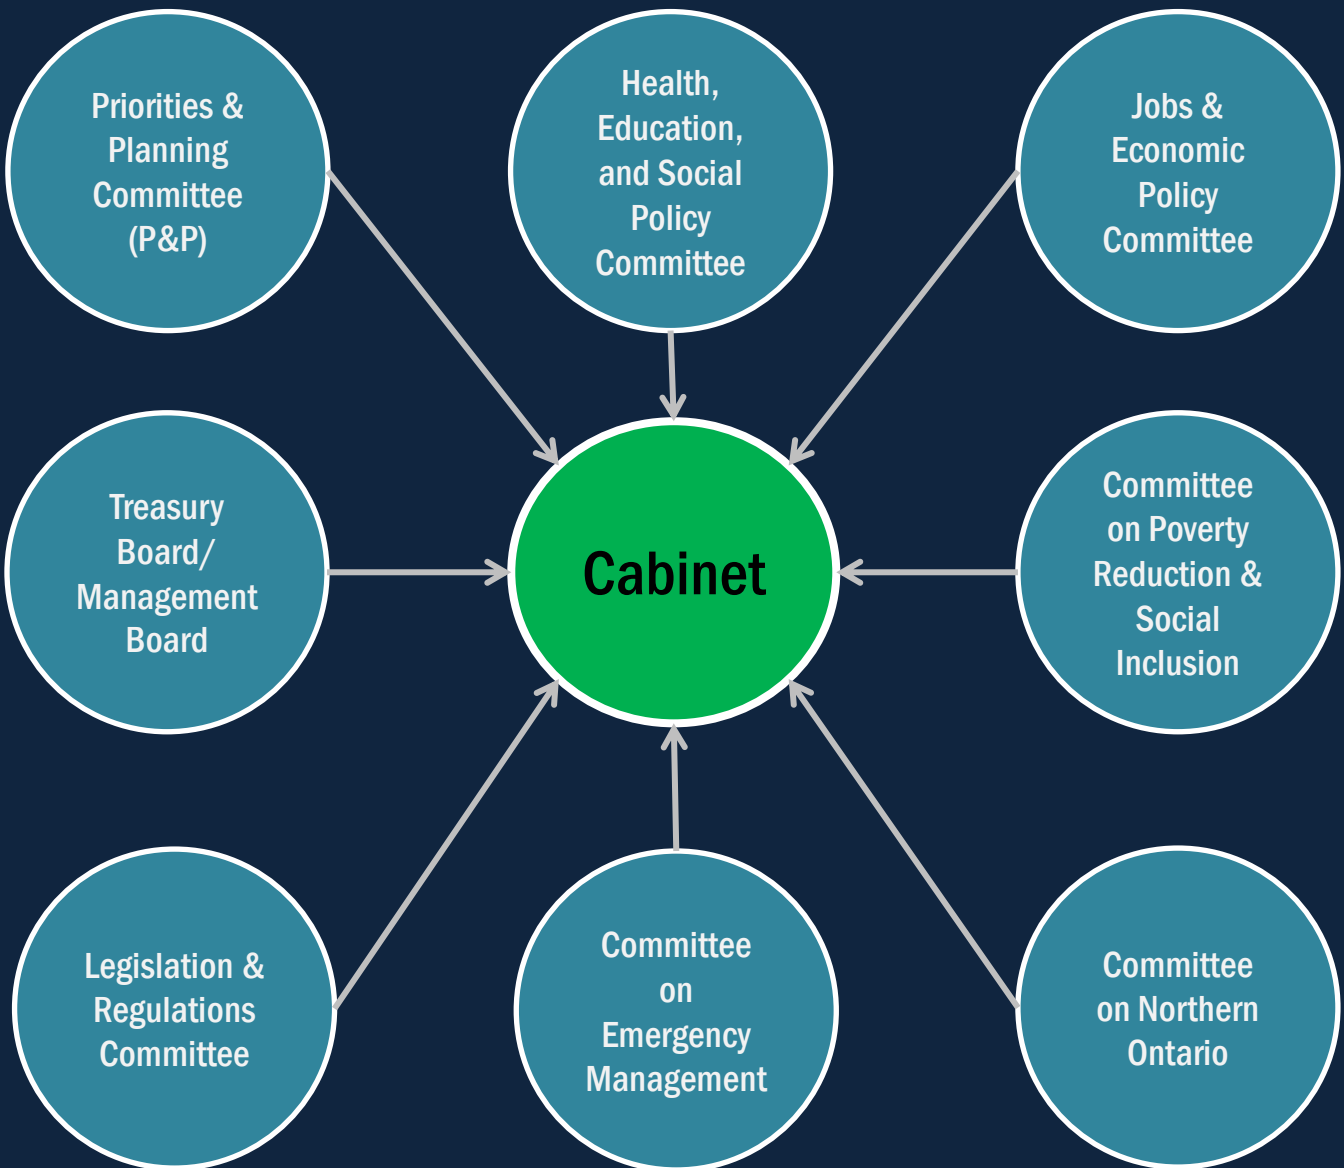

# Ontario Government Structure

# Cabinet Committees / Executive Council

The ultimate decision-making body in the Government of Ontario

# Principles of Cabinet Decision-Making

## Collective responsibility of Cabinet

- Decisions arrived at by consensus (no voting)
- Ministers publicly support all Cabinet Decisions

## Confidentiality of Cabinet Decisions

- Decisions are confidential unless authorized for communication

## Individual responsibility of Ministers

- Responsible to Premier and to Legislature for administration of their ministries (e.g. defending estimates, question period)
- In addition to collective Cabinet responsibility, Ministers represent their Ministries' mandates

## Political Neutrality of Public Service

- Cabinet & Ministers supported by permanent, non-partisan public service
- Truth to Power – our best advice

# Types of Policy

- **Legislation (i.e. Acts)**
- **Regulation**
- **Strategic Policy**
- **Program Policy**
- **Operational/Administrative Policy**

# Ontario Oil & Gas Policy

## Legislation

### *Oil, Gas and Salt Resources Act*

- › Licences and permits
- › Inspector powers
- › Information management
- › Power to make regulation

### *Mining Act (Part IV)*

- › Authority to dispose of Crown oil, gas and storage rights

## Regulation

### *Regulation 245/97*

- › Pooling and spacing
- › Well security
- › Release of information
- › Fees (for Trust)

### *Regulation 263/02*

- › Process for granting Crown rights
- › Royalties and Rents

## Standards

- › Minimum technical requirements for design, installation, operation, and abandonment

## Program & Operational Policy

- › Various individual policies and directives providing guidance to clients and staff

# Consultation

## Crucial to policy development

- Brings stakeholder perspectives into policy development process
- Environmental Bill of Rights:
  - Public input into decisions on environmentally significant proposals
  - Environmental Registry allows public to view and comment on proposals
  - Ministry often engages/consults beyond Registry

- Who?**
- Often involves a wide range of participants, including special interest groups, Aboriginal peoples, the public at large, and other government agencies and ministries
  - Can also involve other governments (federal, municipal, or other provinces)

- When?**
- Consultation can occur at various points during policy development process

- How?**
- Means of soliciting stakeholder input range from simple to complex , less formal to more formal, passive versus active, etc.
  - All regulatory changes are posted on the Regulatory Registry for a minimum of 45 days for public review and comment
  - Policy changes that have potential environmental implications are posted to the Environmental Registry for minimum of 30 days
