Tight Oil Sandstone Reservoirs, Wyoming and Colorado: Core Workshop--
Part III: Maps and Cross-Sections*

Richard Bottjer¹, Gus Gustason², Kevin Smith³, and Jack Beuthin⁴

Search and Discovery Article #80594 (2017)**
Posted August 14, 2017

*Adapted from material (“Wall Hangings”) prepared for Short Course (No. SC-17), sponsored by the Rocky Mountain Section, Society for Sedimentary Geology (RMS-SEPM), associated with AAPG Annual Convention and Exhibition, 2015 (ACE 2015), and held June 4, 2015. Part I (Search and Discovery Article #80592 (2017)) and Part II (Search and Discovery Article #80593 (2017)) are adaptations of the presentations at, and Guidebook for, the Short Course. Please refer to Search and Discovery Article #80591 (2017), adapted from course notes and presentations at Rocky Mountain Association of Geologists (RMAG) Symposium and Core Workshop, Denver, Colorado, March 2, 2017, a sequel (update) to the work reported herein and in Parts I and II.
