

San Joaquin Valley Air Quality Issues: Effects on the Petroleum Industry

Betty B. Coppersmith
ChevronTexaco, Bakersfield, CA
bcoppersmith@chevrontexaco.com

Environmental issues are escalating in the San Joaquin Valley, especially in the area of air quality. Current and proposed air quality attainment statuses and their effects on regulations pertinent to our industry will be discussed. The impacts of such resulting regulatory changes cascade through our business, down to the level of impacting how oil and gas projects are managed. This presentation will give you an idea of what to expect in the Valley over the next few years.
