

The impact of horizontal drilling in the Canadian oil and gas industry, 2013 update

Dave Russum*, AJM Deloitte, Calgary, Canada
drussum@deloitte.ca

Summary (Arial 12pt bold)

The abstract should follow this structure and will be published as received – no content corrections will be made by the Technical Program Committee. Blatant commercialism is cause for rejection of the abstract. Abstracts should be less than 10 MB size. Remember, this abstract will be posted on the website and is part of your legacy.

The abstract title should be in Arial 16pt bold. The names of the authors and the abstract text should be in Arial 10pt normal. Section headers should be Arial 12pt bold. Body text should be Arial 11pt normal.

Introduction

A good abstract presents technically correct ideas with a fresh and enlightening perspective.

Theory and/or Method

Your discussion should be pertinent, focused on the topic and of the appropriate length. To insert a chart, graphic, equation, etc. left click on Insert on the menu bar and then select Object or Picture.

Figure 1: Description of chart, graphic, equation, etc.

Examples

The examples should support your ideas.

Conclusions

Definitive conclusions are made and supported by your data and convincing arguments.

Acknowledgements

Thank you for submitting an abstract to GeoConvention 2013: Integration.

References

Reference Style (use Arial 9pt normal)
