

Recent Exploration Discoveries of the Westside San Joaquin Basin, CA

Robert Bridges¹, Bob Stupp¹, Ingvar Alarik¹, Kurt Johnson¹, and Kurt Neher¹

¹VP Resource Development, California Resources Corporation

Abstract

This talk will discuss recent California Exploration discoveries that led to a successful rethinking of what we know and understand about the San Joaquin Basin and its remaining potential. Key concepts will include Creativity, Teamwork what is data and the integration of data, challenging interpretations, and the impact an Exploration program can have on future development programs.
