

## **Shale & Tight Reservoirs: Applied Technologies to Accelerate the Learning Curve**

**N. Giordano<sup>1</sup> and Hernán Stockman<sup>1</sup>**

<sup>1</sup> Halliburton Argentina

### **ABSTRACT**

We will describe case studies that show Halliburton's experience with microseismic and fiber optics applied to shale and tight reservoirs in Neuquén Basin. We will also present technical insight and some of the main considerations that can be taken from commonalities found in several cases.
