

## **Drone Reality Check – What Drones Can’t, Won’t, and Flat-Out Refuse to Do**

**Michael Nash<sup>1</sup>**

<sup>1</sup>University of Oklahoma

### **Abstract**

The goal of this presentation is to review the basic safety procedures and protocols for drones and other robotics used in field studies and surveys. The guidelines apply to small multi-rotor as well as fixed-wing drones and UAVs. In addition to physical safety, issues of ethics and privacy assurance are addressed. The presentation will be accompanied by a quiz which can be taken after the presentation.
