

What have Geologists Learned about the Moon and Mars since the Last Moon Landing 50 Years Ago?

Harrison “Jack” Schmitt¹ and Jessica Watkins²

¹Apollo 17 Astronaut and Moonwalker

²NASA Astronaut

Abstract

The All-Convention Luncheon presentation features Dr. Harrison “Jack” Schmitt, Apollo 17 Lunar Module Pilot and 1972 Moonwalker! AND Dr. Jessica Watkins, a current NASA astronaut, who recently returned to Earth from the ISS Space Station! Both astronauts will talk about geologists in space, and the U.S. effort to return to the Moon with future Artemis Missions. What have geologists learned about the Moon and Mars since the last moon landing 50 years ago?
